# **FTS Interactive Markets**

- Markets with price discovery
  - Students bid, ask, buy, sell in a continuous double auction
  - a "true market" in that you cannot trade unless someone else in the market is willing to trade with you
- Based around trading cases
  - Describe the environment, trading and learning objectives

# Requirements

- Install the FTS System Manager, available at <u>www.ftsmodules.com</u>
- This must be done on every computer running the system
- PLUS: Port 26888 must be open for two-way communication between all computers in the room

# **FTS Interactive Markets**

- Moderator runs the FTS Market from the FTS System Manager
  - Selects the trading case
  - Allows connections (by students)
- Each student runs the FTS Trader from the FTS System Manager
  - Connects to the market
- Trading starts when moderator allows it
- All output is stored in a spreadsheet, easy to provide feedback or data for analysis

- Run the FTS System Manager
- Click "Moderator Applications"

- Enter your moderator password in the little popup window
  - If you don't have a password, please contact FTS

Select the FTS Market Version X and click "Run Selected Application" The version numbers change as we add features, so just run the latest version.

 Once the application launches, the case selection window of the FTS Market will appear

FTS Market, Version: v8.0	x
Help	
I want to download the cases from the FTS Web Site     Select the case workbook and click     'Download'     The Excel workbook with the cases is already open	
C The Excel workbook is saved on this computer	<u> </u>
Download Cases	
Select the case and click OK	
✓ Rotate trader positions every trial	
If you have trouble downloading the cases, you can download them manually below. If you still experience problem, click "Troubleshooting" below or contact FTS for help.	
Home Back Forward Stop http://www.ftsweb.com	-
<ul> <li>FTS Case Workbooks.</li> <li>If you experience delays or any problem with the automatic download system: <ul> <li>Click on the case workbook below you want and when prompted, click Open</li> <li>Select "The Excel workbook with the cases is already open" in the FTS Market (colored in green)</li> <li>Click "Locate Excel Workbooks"</li> <li>Click for <u>Case Descriptions</u></li> <li>Clase workbooks: <ul> <li>All Cases: Click on <u>ftsStandard.xls</u></li> <li>Bond Cases: Click on <u>ftsStdB0.xls</u></li> <li>Market Efficiency Cases: Click on <u>ftsStdRE.xls</u></li> <li>Option Cases: Click on <u>ftsStdOP.xls</u></li> <li>Stock Cases: Click on <u>ftsStdStk.xls</u></li> <li>Risk Manazement Cases: Click on ftsStdRM.xls</li> </ul> </li> </ul></li></ul>	11
• Trading case GC1 (Note read the Instruction sheet in this spreadsheet	
before running): ftsGC1.xls	Ŧ

- Select the subset of cases you want to download
  - Or, you can download
     All Standard Cases
  - You can also read in cases that you have saved on your computer

- Click Download Cases
- Select the case and click OK
  - Answer questions that appear next (click No to keep defaults)
- In the window that appears next, click "Allow Connections"

- The main market window will appear
- Note the IP address at the top
  - Tell this IP address to every student, they need to know this to connect to the market

#### **Instructor Summary**

- Select and Run the FTS Trader Version X from the System Manager
- They will need:
  - The IP address of the instructor's computer
  - A trading name (they can use their university email address or the instructor can assign each student a unique trading name)

 Enter the IP Address of the instructor's computer and the trading name, then click Connect to the Market

- The trading window for the students will appear
  - They trade:
    - Place bids and asks, hit bids and asks of others
    - The top right panel lets them enter their quotes and trades
    - They can also use the hand signals

#### **Student Practice**

- We run a demo all the time of case B02
- It has prices and trades from a previous session
- You can interact
  - Enter quotes, trade
  - Practice all the mechanics

#### **Student Practice**

- In a web browser, go to
  - www.ftswebtrader.com
  - Click Connect to Demo on the web pae:

# Running a continuous practice market

- You can run your own "unattended" market that runs all the time and that students can log in out as they want
  - Run a market as usual
    - Require students to login with the first part of their email address, so when they login again, they re-use their trading name
      - If they login with a different name every time, you will soon exceed the maximum number of traders
  - Start the market
  - From the Market's Options menu,
    - Check on "Cycle mode"
      - This means that when it reaches the end of the trials, its starts over with trial 1
    - Check on "Auto mode"
      - This means that you don't have to click Initialize or Start in between periods
    - Check on "Don't write trading history"
      - Otherwise your output spreadsheet can get very large
  - The market will now run keep running, students can login and logout, and practice any case you want.

# **Trading Basics: Bids**

- A bid is an offer to buy
  - The highest bid is the most anyone is willing to pay
    - The highest bid is shown in the montage
  - If someone else posts a bid, what can I do?
    - I can sell to them if I think the price is high enough
    - I can raise the bid if I am prepared to pay more
  - If I post a bid, what can happen?
    - Someone else can hit my bid, so they will sell to me and I will buy
    - They can raise the bid if they are prepared to buy at a higher price

# The Basics: Bids

- Everyone put in a bid
  - Click on a security name, then enter a price and a quantity, then click Submit Bid
- See the bids in the book
- Sell to the bid
  - Enter a quantity, click Sell to Bid

## The Basics: Asks

- An ask is an offer to sell
  - The lowest ask is the least anyone is willing to get
    - The lowest ask is shown in the montage
  - If someone else posts an ask, what can I do?
    - I can buy from them if I think the price is low enough
    - I can lower the ask if I am prepared to accept less
  - If I post an ask, what can happen?
    - Someone else can hit my ask, so they will buy from me and I will sell
    - They can lower the ask if they are prepared to sell at a lower price

# The Basics: Asks

- Everyone put in an ask
  - Click on a security name, then enter a price and a quantity, then click Submit Ask
- See the asks in the book
- Buy from the ask
  - Enter a quantity, click Buy At Ask

# **Practice Trading**

- Enter bids and asks
  - Hand signals can be used to quickly raise bids (hand pointing up)/lower asks (pointing down)
- Sell to the bids and buy at the asks of others
  - See how your position changes
  - See how your cash changes

- At the end of the period
  - Interest is paid on cash
  - Then any payoffs from the securities are distributed
    - E.g. coupon payments, dividends
  - All this is added to your cash
- At the end of the trial
  - After interest and payoffs, your cash is converted to "grade cash"
    - E.g. grade cash = 0.1 \* cash

#### Practice on your own

- Using the case B02 demo, select the Excel link from the File menu
- Learn how to use this from the <u>Student</u>
   <u>Preparation Manual</u>
- Follow the instructions for case B02 in the manual

# Instructor Suggestion

- In the class before you run a trading case, run a practice session
  - Explain the case
  - Run one trial so everyone sees the screen
  - They can create an Excel template during that trial
    - So pause the market, give them time to create the Excel link and save the spreadsheet
  - Students work on the spreadsheet and any other case preparation
  - In the next class, run the case
